

# TECHNICAL SPECIFICATION

## BACK FOAM PROFILES

**Spec:** Improvion Design Standard Seam - IVD001

**Details:** Concealed upholstery seam providing a clean, durable finish.

**Spec:** Improvion Design Face Stitch Flute - IVD007

**Details:** Visible stitching on the surface of seating to add subtle fluting detail

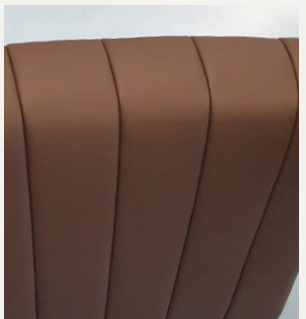

**Spec:** Improvion Design Twin Stitch Seam - IVD002

**Details:** Parallel decorative stitch detail, visible on leading front edge only.

**Spec:** Improvion Design Pinch Stitch Flute - IVD008

**Details:** Fabric stitched and pinched into defined vertical channels

## SEAT FOAM PROFILES

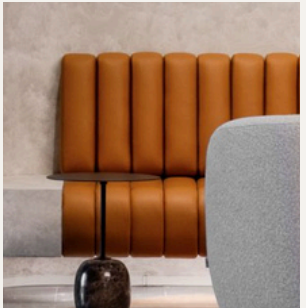

**Spec:** Improvion Design Top Stitch Seam - IVD003

**Details:** Visible single stitch detail for strength and decorative finish on upholstery.

**Spec:** Improvion Design Individual Piece Flute - IVD009

**Details:** Each section covered individually for a pronounced, sculpted bubble effect

**Spec:** Improvion Design Flange Seam - IVD004

**Details:** Decorative edge seam with turned flange

**Spec:** Improvion Design Deep Pinch Stitch Flute - IVD010

**Details:** Similar to standard pinch stitch but pulled deeper for greater definition, creating a distinct, individual-section appearance

**Spec:** Improvion Design Exposed Seam - IVD005

**Details:** Exposed seam for leather only, creating a decorative open join along edges as indicated.

**Spec:** Improvion Design Ruching Detail - IVD011

**Details:** Fabric or leather gathered or pleated to create soft, decorative folds

**Spec:** Improvion Design Piping - IVD006

**Details:** Raised cord edge detail, matching or contrasting.

**Spec:** Improvion Design Deep Button - IVD012

**Details:** Fabric or leather pulled tightly into recessed buttons, creating a plush, tufted effect.
